Why Bergstein Single Pass Printing Sets the Standard in Industrial Printing

Since 2002, Bergstein Digital has been at the forefront of industrial digital printing, delivering high-speed single-pass solutions for direct-to-object printing across a global market. Our mission is simple: provide cutting-edge technology that empowers your production, maximizes flexibility, and ensures exceptional print quality every time.

Why Choose Bergstein Digital?

From plastics to glass, nitrile to cardboard and even metal or aluminum, our printers are designed to print directly on an extensive array of materials. No matter what your printing needs are, our versatile printers have you covered.

Flexibility and Personalization

Print on demand, with full customization for every item. Variable data, logos, or designs can be applied on the fly perfect for personalized products, limited runs, or fast-moving markets.

Speed and Efficiency – Single Pass Advantage

01. Faster setup: Switch jobs in seconds with digital file changes.
02. Print small or large volumes without compromise.
03. Labor savings: Minimal operator intervention required.

Precision and Quality You Can Trust

Every printer features high-precision transport systems and smart software to guarantee perfect registration and consistent color on every product. From full-color logos to opaque whites and clear coatings, your prints will meet the highest industrial standards.

Modular and Future-Proof Design

Bergstein printers are fully modular, allowing you to configure pre-treatment, printheads, and curing systems to suit your products. Whether printing helmets, electronics, or packaging, our printers adapt as your business grows protecting your investment for the future.

Bergstein Print Manager

Our self-developed software, operators benefit from easy job handling, remote service, and full process control.

Seamless Integration

Our printers are designed to fit effortlessly into your production process. Whether you're a small business or a large manufacturing operation, our modular built printers can integrate seamlessly into your workflow, offering a solid framework with a high-tech transport system.

Sustainability and Cost Efficiency

Digital printing eliminates waste from overproduction. Only print what you need, when you need it, reducing material usage, energy, and storage costs. UV inks cure instantly, meaning products are ready for packaging immediately, lowering labor and inventory costs.

Customized solutions

Every print job and product is unique. That's why our printers are fully customizable, ensuring that they can easily adapt to meet your specific needs and requirements. Bergstein Digital also creates a customized formula for the necessary modules, including setup for pre-treatment, CMYKWW colors, spot colors and post-treatment, resulting in an optimal printing solution tailored to your business

Complete Support and Partnership

At Bergstein, we do not just sell printers, we deliver complete solutions. From pilot testing and R&D to full industrialization and automation, we ensure your printing operations run smoothly. Our service contracts provide peace of mind, allowing you to focus on production while we focus on keeping your printer running at peak performance.

At the end, choosing a Bergstein Single Pass Industrial Printer is not just a purchase; it is an investment in **efficiency, versatility, quality, and sustainability**. It's an investment in your business's future. So why wait? Join the revolution and take your printing to the next level with Bergstein Digital.
